

A heatmap visualization showing the maximum probability $\text{Max } P(\theta, L, \Gamma)$ across 10 particles (x-axis) and 10 iterations (y-axis). The color scale ranges from 0.00 (dark purple) to 0.30 (yellow). The plot shows a checkerboard-like pattern of high and low values, with the highest values (yellow) appearing at specific intersections, such as (Particle 1, Iteration 1) and (Particle 8, Iteration 8).
