

A heatmap visualization showing the maximum probability $\text{Max } P(\theta, L, \Gamma)$ across 10 particles (x-axis) and 10 iterations (y-axis). The color scale ranges from 0.00 (dark purple) to 0.30 (yellow). The highest values (yellow) are concentrated in the center of the plot, specifically around particle indices 3-4 and iteration indices 4-5, indicating a region of high probability.
